Ongoing	30 minutes	\$55.00		
<b>Doubles Package</b>				
Hands and Feet Initial	1 hour	\$100.00	\$50 session	\$250.00
Hands and Feet package (14 sessions)	7 hours	\$560.00	\$40 session	
Feet or Hands and Axillae Initial	1 hours	\$150.00	\$40 session + \$75 sponges	
Feet or Hands and Axillae package (14 sessions)	7 hours	\$635.00	\$40 session + \$75 sponges	

An initial session is for people who are not sure if they would like to have all 7 sessions. If you would like to have all session from the start the initial package should be used. If after the initial session all sessions will be completed each session will be charged at the discount price.

For axillae treatments sponges are given at first treatment and should be bought back to every subsequent treatment. Sponges will need to be purchased for \$75, not including session price, if original pair is not bought back for other treatments.

Glycopyrrolate is a medicated solution that requires a medical prescription. Glycopyrrolate iontophoresis is not suitable for all patients.

There is no subsidy from Medicare for Iontophoresis treatments. Each individual will need to check with their own private health care provider for a rebate. Payment is required at the time of service.

For other treatments please talk to our friendly staff.
